FW 25/26

SALOMON

Our history begins in a small workshop, with a family dedicated to honing the craft of tuning unassuming pieces of metal, into perfectly gripping ski edges. Edges whose sharpness shaped skiing culture for the past three quarters of a century. As the years went by... Our vision challenged conventional ski norms. Our gear always adapting to meet the needs of a constantly evolving sport. We got bigger, and sharp edges are now only part of our expertise. We took risks on and off the slopes. Often, we won. Yet, sometimes we failed. What is failure but an opportunity to learn?

Hand in hand, on the snow, we learn from the best. From those who dedicate their lives to perfecting their skiing. Our family is now made of inventors, designers, engineers, World Champions, mountain lovers, ski veterans and new recruits. With their help, we continuously shape new trends. Every year our products get more sophisticated, but our standards never change. In our world, performance is a way of life and excellence is our norm. We are limit pushers and progress seekers.

WE ARE THE SALOMON FAMILY, AND WE HAVE BEEN PROUDLY TRANSFORMING SKIING SINCE 1947.

MADE IN ANNECY WORLD CUP PRODUCTS

ALPINE

35 years
of experience
reinforcing our
craftsmanship spirit.

Testing, selection and validation of prototypes by former athletes. ■

One roof engineering

Development of skis, boots, bindings and plates at the Anancy Design center.

Athletes services

with dedicated molds and customisation for top-athletes needs. A laboratory for the development.

Renewed machineries

for top-level production.

150 pairs

of testing and World Cup skis produced at the Anancy Design Center. ■

S/RACE FIS SL 157

13m NEW
L47904800•

Upgrade your racing performance, master even the fastest turns.

Built to improve your mastery of every turn, especially when every hundredth of a second counts, the S/RACE FIS SL is a powerful racing ski with a 13 m radius. Featuring Salomon's trailblazing Blade technology, it's stable and powerful underfoot, yet lively and instantly reactive when initiating and exiting even the tightest turns.

Progress your racing,
carve to the top.

TOE STEEL REINFORCEMENT

Enhanced with metal reinforcements at both the toe and heel, these bindings offer heightened rigidity for more responsive control and a stable sensation even at high speed.

FULL FLAT RACE PEDAL

A completely flat pedal that grants absolute precision and terrain feedback, especially when combined with Alpine racing boots.

CENTRALIZED POWER TRANSFER

By strategically placing screws under the boot, this mounting pattern maximizes racer's underfoot power and enhances the tip and tail's reactivity and rebound.

Choose the right skiboots that fit your expectations.

S/RACE² BOOTS

Progressive and tolerant geometrie and module.

FULL SERVICE

LARGER PLASTICS

Polyurethane ether - To charge through the gates with full control and confidence.

LOWER MODULE

MORE PROGRESSIVE AND TOLERANT

HEAVIER

S/RACE BOOTS

Direct and aggressive geometrie and module.

FULL SERVICE

THINNER PLASTICS

Polyurethane ether + Xecarb® cuff reinforcement - To provide the right snow feeling for victory.

HIGHER MODULE

MORE DIRECT AND AGGRESSIVE

LIGHTER

360° 65 MM DUAL CLAW

Made with a claw system to allow for low elasticity and better lower leg hold, it ensures maximum power transmission.

WORLD CUP LINER

Delivering the highest level of performance and foothold, while a specific World Cup tongue allows better shock absorption.

S/RACE² 140 WC

L47049700

The uncompromised fit and performance racers need at their feet.

Engineered in collaboration with Salomon's racing team, the new S/RACE² 140 WC is designed to increase skiers' competitive edge through every phase of every turn. This ski boot's race construction and World Cup liner will provide you with the lightness and precision needed to charge through the gates with extreme control and confidence.

FULL SERVICE

1 CONSTRUCTIONS

Injected ABS

› ROBUSTNESS AND DURABILITY

Made from a single injection of ABS beads, this construction delivers high durability, shock absorption, impact deflection and resistance to penetration.

Fiberglass

› RACING COMPLIANCE

Certified to FIS RH 2013 standards, these helmets can be used in GS, SG and DH ski races. The construction features a multi-impact EPS and EPP liner and a durable fiberglass shell. Available only on our S/Race model.

2 SAFETY

EPS4D

› BETTER SHOCK REPARTITION

The traditional EPS structure is hollowed out to create pads that absorb an additional 30% of shocks without impacting the complete structure of the helmet. This also improves ventilation by creating air channels and reduces the amount of material used, lowering the helmet's environmental impact.

CHECK THE EPS4D VIDEO

3 FIT

Custom Dial 360 V

› SIMPLE FIT ADJUSTMENT

The Custom Dial 360 V provides added versatility and a more fine-tuned adjustment to the helmet. All around and an additional vertical adjustment in the neck, it allows a tighter fit and perfect stability. Just loosen the knob for a more relaxed fit.

SIGMA

Sigma™ is Salomon's innovative lens solution that significantly amplifies color contrast on snow, enabling the eye to instantly read terrain variations.

A high-contrast lens cannot perform at its best in all types of environments. That's why Salomon's Sigma™ lens was specifically developed to better interpret snowy terrain.

The eye is made up of blue, green and red cones that detect different colors of light. But in a snowy environment, white light reflected from the snowy triggers all three cones and makes it hard to see detail.

Sigma™ lenses reduce the green light in the middle of the spectrum, therefore boosting the blue and red light transmitted. It offers less confusion between these 2 colors, so the snow appears sharper, with more clarity and detail.

REGULAR YELLOW LENS

SIGMA™ LENS

Available in category 3, 2, 1 and photochromic 1 to 3, Sigma™ lenses are the perfect solution for premium vision whatever the light conditions.

For masters athletes the ski length is a recommendation (except SG)!
No restrictions regarding length, width and radius for women above 55 and men above 65!
The FIS recommendations and rules for ski length, radius and profile width can be found in the current FIS Specifications for Competition Equipment!
www.fis-ski.com
